The surrender value payable is higher of the Guaranteed Surrender Value (GSV) and Special Surrender Value (SSV). Once the policy is surrendered in full, it cannot be reinstated.

Guaranteed Surrender Value: We guarantee a minimum surrender value of 30% of the total premiums paid excluding first year premium, rider premiums and extra premium paid, if any.

Special Surrender Value: The Special Surrender Value is an amount equal to surrender value factor mentioned in the table below multiplied by paid up value payable at maturity, where.

Paid up value payable at maturity = Basic sum assured* (number of premiums paid / total number of premiums payable) plus Accrued Guaranteed Loyalty Additions.

What happens if I discontinue paying premium?

If you discontinue payment of premiums, your policy will;

- ▶ **Lapse:** If less than three years' premiums have been paid and should you decide to stop paying further premiums, your policy will lapse at the end of the grace period and Insurance Cover and Rider benefits cease immediately. No benefits will be paid when the policy is in lapsed status. Accrued Guaranteed Loyalty Additions, if any, are not payable for a policy in lapsed status. No further Guaranteed Loyalty Additions will be payable.
- ▶ **Paid up:** If you discontinue paying premiums after paying premium for three full years', then your policy will be converted into a paid-up policy.

The benefits under basic plan will be reduced in a manner as given below:

Paid up value payable on death = Twice the basic sum assured * (Number of premiums paid / total number of premiums payable) plus Accrued Guaranteed Loyalty Additions.

Paid up value payable on maturity = Basic sum assured* (number of premiums paid / total number of premiums payable) plus Accrued Guaranteed Loyalty Additions.

The life insurance protection will continue to the extent of the paid-up value until the end of the policy term but rider benefit will cease. Once the policy becomes paid up, further Guaranteed Loyalty Additions and Guaranteed Maturity Addition will not be payable.

What if I want to revive a paid-up or lapsed policy?

A policy in lapsed or paid up condition can be revived during the revival period by paying the arrears of premiums along with interest at prevailing rate of interest. If the basic plan is revived, rider benefits can be revived by paying the arrears of premiums under the riders with interest at prevailing rate of interest.

The revival of the policy and riders, if any, will be subject to satisfactory medical and financial underwriting.

The current rate of interest is 9% p.a.

The revival period is a period of 2 years from the due date of first unpaid regular premium or date of maturity of the basic policy whichever is earlier.

Can I avail of a loan against this Policy?

Yes. Loan will be available under a policy up to 80% of the surrender value under basic plan after the policy acquires a surrender value.

Interest on loan is payable at prevailing rate of interest. The current rate of interest on policy loans is 9% p.a. If at any time during the term of the policy, the sum of loan outstanding and interest on loan outstanding exceeds 95% of the surrender value; the policy will be terminated by recovering the loan outstanding and interest on loan outstanding from the surrender value. The balance of surrender value under basic plan will be paid to the policyholder.

Before payment of any benefit (death, maturity, surrender etc.) to the policyholder under policy under which loan is availed of, the loan outstanding and the interest on loan outstanding will be recovered first and the balance if any will be paid to the policyholder or the nominee(s).
